

Department of Information and Technology

Fund Support: The Department of Information and Technology is supported by the General Fund.

Description: The Department of Information and Technology (IT) manages the City's telephone, telecommunications, cable television, and computer systems including mainframes, personal computers, mobile computers, wireless communications devices, and local and wide area networks. The department also maintains and manages the City's Web site and Geographic Information Systems (GIS) and collects revenues from telecommunications-related activities.

Department Mission Statement: The Department of Information and Technology is dedicated to delivering timely information and technology services through cable television, computer systems, telecommunications systems, and the Internet. The department strives to implement technology to improve the efficiency and quality of services the City provides its citizens.

Goals:

- Expand the use and number of e-government applications throughout the City, including utility billing and permit planning. \
- Provide remote access for inspectors and field personnel to the City's permit and e-mail system through the integration of new software and equipment. \
- Develop automated forms and workflow systems for Personnel, Finance, City Manager, and Community Planning and Development Services to increase efficiency and reduce cycle times. Automated forms and systems may include overtime and internal enrollment for Wellness and other programs. \
- Provide election coverage and televise up to three debates of the Mayor and Council candidates over cable and the Internet. ♥

Significant Changes: Continue implementing recommendations outlined in the Information and Technology Strategic Plan. Begin offering streaming video on demand where the public can selectively playback certain programs in part or in their entirety from the City's web site. An increasing number of forms and workflow systems will be automated so that City staff and the public can complete forms online to improve efficiency.

Staff Contact: Michael Q. Cannon, Director of Information and Technology (240) 314-8162.

Budget Summary:	FY 2001 Actual	FY 2002 Actual	FY 2003 Budgeted	FY 2003 Modified	FY 2004 Adopted	FY 2003-2004 Change
IT Operations	\$1,976,943	\$2,097,941	\$2,201,029	\$2,279,186	\$2,260,983	-0.80%

Information and Technology Operations

Department of Information and Technology

Fund Support: General Fund.

Description: The Information and Technology (IT) Operations Division manages the City's telephone, telecommunications, and computer systems including mainframes, personal computers, and networks. The division also maintains and manages the City's Web site and Geographic Information Systems (GIS).

FY 2004 Objectives:

- Offer Web-based utility bill payment for the City's water, sewer, and refuse customers. \
- Develop Lotus Notes applications to make traditional paper forms available electronically. \
- Provide inspectors with mobile access to Permit*Plan software while in the field using laptops. \
- Implement a content management system to streamline posting information on the City's Web site. \
- Support the technology, telephone, and cabling needs for the renovation of City Hall. \
- Begin a two-year project to upgrade or, if necessary, replace the City's financial system. \
- Build and enhance the GIS database and train various City staff in the use of GIS software.
- Expand the use of the City's Intranet site to facilitate information sharing among employees and between departments and train designated users in each department to publish information on the Intranet site.
- Replace one-third of the City's personal computers as part of the three-year replacement cycle.
- Make enhancements to the City's I-Net to improve redundancy in the event of a fiber cut.
- Conduct "hands on" computer training using newly acquired mobile classroom equipment, including training on MS Office, Lotus Notes, file management, and GIS.
- Support the Police Department in selecting, evaluating, and implementing technologies to improve security and public safety.

Performance Measures:	FY 2002 Actual	FY 2003 Target	FY 2003 Actual	FY 2004 Target
<u>Mainframe System</u>				
<i>Outcome/Effectiveness:</i>				
Average system response time (in seconds)	1.5	2.0	1.5	3.0
<i>Efficiency:</i>				
Cost for Financial and Human Resource Systems \	\$91,000	\$95,000	\$147,840	\$100,000

Information and Technology Special Projects

Department of Information and Technology

Fund Support: General Fund.

Mission Statement/Description: The Information and Technology Special Projects Division manages projects that support the Mayor and Council's technology initiative. Most of the projects involve making significant upgrades and improvements to the City's technology infrastructure and are one-time expenses. Funding for these projects began in FY 2001 and will take several fiscal years to complete.

Projects:	FY 2002 Actual	FY 2003 Estimate	FY 2004 Adopted
Web site redesign (consultants) and Web Content Management Software.	\$0	\$101,300	\$18,500
Web-enabled utility billing system. ⁽¹⁾	0	0	0
Web-enabled GIS application. ⁽²⁾	0	0	0
Mobile training system (laptops and cart).	0	39,786	0
E-commerce Parking Ticket Application. ⁽³⁾	0	0	0
Permit*Plan Web access and mobile computers. Software and hardware to provide permit applicants the ability to track permit status through the Web and to enable inspectors and field staff to access Permit*Plan with mobile computers equipped with wireless modems. Funding also is included to enable online animal licensing.	69,662	0	100,000
Network hardware and consulting services to build institutional network (I-net). The I-net is a fiber optic network linking key City facilities to enable/enhance telephone, data and video communications. ⁽⁴⁾	240,563	6,780	0
RockNet Web server, digital camera, and new listserve software	5,117	0	2,000
Citizen automated registration system. Replaced City's mainframe based recreation system with feature rich system including online registration through the Web and touch-tone telephone registrations.	23,817	0	0
Streaming video server to broadcast Mayor and Council meetings and other City of Rockville programming over the Web.	0	4,528	0
Disaster Recovery Plan to establish detailed procedures for senior and IT staff to follow for all critical systems in the event of a disaster.	0	0	50,000
Telephone Permit Tracking System for developers and citizens to track the status of permits using a touchtone phone.	8,475	33,095	0
Available IT Special Project Funds	0	41,686	71,886
Funding Total	\$347,634	\$227,175	\$242,386

(1) Will be funded through the Water Fund.

(2) Funded through the CIP in the GIS Development Project.

(3) Funded through the Parking Fund in the amount of \$30,000.

(4) Includes \$100,000 grant from Montgomery County.

Budget Summary:	FY 2001 Actual	FY 2002 Actual	FY 2003 Budgeted	FY 2003 Modified	FY 2004 Adopted	FY 2003-2004 Change
Personnel	\$0	\$0	\$50,000	\$50,000	\$0	-100.00%

Total Expenditures	<u>\$173,870</u>	<u>\$347,634</u>	<u>\$391,349</u>	<u>\$477,875</u>	<u>\$242,386</u>	<u>-49.28%</u>

Cable Television and Telecommunications

Department of Information and Technology

Fund Support: General Fund.

Mission Statement/Description: The Cable Television and Telecommunications Division provides television and video communication support and services to City staff and increases citizen awareness and participation through the use of *The Rockville Channel* (cable channel 11). The division produces programs about City government and airs these shows on *The Rockville Channel* (TRC). The primary purpose of these programs is to provide residents with information about the policy and operation aspects of their municipal government and to assist departments in getting information out to the public. Programs produced on a regular basis include all Mayor and Council meetings and Planning Commission meetings. The division produces and airs special programs such as *Exploring Rockville's Past*; *City Manager's Budget Presentation*; *Martin Luther King, Jr. Celebration*; *Election Night Live*; and *Online Frontier: Internet Safety*. The division coordinates and oversees the development and implementation of the City's cable television and telecommunications policies and agreements, among them, cable television franchises, right-of-way agreements for telecommunications companies, and wireless facility leases for City property.

FY 2004 Objectives:

- Provide election coverage and televise up to three debates with the Mayor and Council candidates. ♥
- Provide video-on-demand programs on the City's Web site such as the most recent Mayor and Council meeting, City Hall Report, Cityline, and Mayor and Council Review, in addition to public service announcements and some "evergreen programs."
- Provide live coverage of at least one event from the F. Scott Fitzgerald Theatre.
- Upgrade equipment, transition to digital format, and use new graphics and special effects software.

Performance Measures:	FY 2002 Actual	FY 2003 Target	FY 2003 Actual	FY 2004 Target
<i>Outcome/Effectiveness:</i>				
Percent of citizens getting most or a lot of information from the Rockville Channel ♥	NA	60%	11%	NA
Percent of citizens rating the quality of programming on the Rockville Channel as excellent or good	NA	NA	62%	NA
<i>Efficiency:</i>				
Avg. cost per finished production for cable programming:				
▪ Live meeting coverage	\$701	\$736	\$763	\$780
▪ News	\$2,179	\$2,308	\$2,437	\$2,490
<i>Workload:</i>				
Minutes of cable programming produced:				
▪ Live meeting coverage	4,064	12,000	11,235	8,500
▪ News	660	660	630	660

Budget Summary:	FY 2001 Actual	FY 2002 Actual	FY 2003 Budgeted	FY 2003 Modified	FY 2004 Adopted	FY 2003-2004 Change
Personnel	\$231,620	\$261,599	\$315,510	\$326,422	\$365,236	11.89%
